A Great Victory A Terrible Case of Scrofula Cured by

Hood's Sarsaparilla

In the winter of 1879 I was attacked with crofula in one of the illust aggravating forms: At one time I had no less than thirteen large bscesses over and around my neck and throat continually exuding an offensive mass of bloody matter disgusting to behold, and almost intolerable to endure. It is impossible to fully describe my sufferings, as the case was complicated with Chronic Catarrh. After oually exuding an offensive mass three years of misery, having been treated by three physicians, I was worse than ever, Finally, on the recommendation of W. J. Huntley, druggist, of Lockport, I was induced to try Hood's Sarsaparilla. And now, after having taken twelve bottles, within the last twelve months, the scrofulous eruptions have entirely ceased, and the abscesses have a disappeared, except the unsightly sears, which entirely ceased, and the abscesses have all disappeared, except the unsightly scars, which are daily becoming 'smaller by degrees, and beautifully less.' I do not know what it may have done for others, but I do know that it may have done for others, but I do know that in my case, Hood's Sarsaparilla has proved an effective specific indeed. As an evidence of my gratitude I send these facts unsolicited, and I am ready to verify the authenticity of this cure, by personal correspondence with any one who doubts it." Charles A. Bobbers, East Wilson, N. Y. This statement is confirmed by W. J. Huntley, druggist, of Lockport, N. Y., who calls the cure a great victory for Hood's Sarsaparilla. Send for book giving statements of many cures.
